

# BILLING REPORT: AISC

Generated: August 29, 2025

Total Completed Tasks: 7

## COMPLETED WORK SUMMARY

### 1. Handle DNS for anti-imperialist and vercel integration

Duration: 15 mins

Completed: 08/29/2025

Description: Updated DNS records within Namecheap to properly point to Vercel's servers. This was necessary to ensure the anti-imperialist website is hosted and served correctly through the Vercel platform, enabling proper website functionality and performance. This configuration ensures seamless integration with Vercel's deployment and hosting services.

### 2. Add Substack to website

Duration: 15 mins

Completed: 08/29/2025

Description: Implemented Substack signup form on the client website, including generating the embed code and customizing the styling to match the existing design. This integration allows for direct collection of email subscribers from the website, expanding the client's audience reach and supporting future newsletter marketing efforts. Ensured proper functionality by verifying that new email addresses are successfully added to the Substack subscriber list.

### 3. Change CORS policies

Duration: 15 mins

Completed: 08/29/2025

Description: Updated the website's Cross-Origin Resource Sharing (CORS) policies to enable secure communication with the Content Management System (CMS). This ensures proper data flow and functionality between the website and CMS while mitigating potential security vulnerabilities related to cross-origin requests.

### 4. Administration

Duration: 15 mins

Completed: 08/29/2025

Description: Documentation of all work. Cleaning repo and updating CMS.

### 5. Refactor site for Vercel deployment

Duration: 45 mins

Completed: 08/29/2025

Description: Need to refactor the site to host it on vercel so I am not managing multiple projects across multiple platforms.

## 6. Advise email migration

Duration: 15 mins

Completed: 08/29/2025

Description: Provided guidance on email transfer

## 7. Add .ico file

Duration: 20 mins

Completed: 08/29/2025

Description: Updated favicon for browser. Created icon from logo in photoshop
