COMPLETED WORK SUMMARY

1. Handle DNS for anti-imperialist and vercel integration

Duration: 15 mins

Completed: 08/29/2025

Description: Updated DNS records within Namecheap to properly point to Vercel's servers. This configuration was essential to ensure the anti-imperialist website is correctly hosted and accessible through Vercel's platform, enabling improved performance and deployment capabilities.

2. Add Substack to website

Duration: 15 mins

Completed: 08/29/2025

Description: Generated and implemented a Substack embed form on the client website to facilitate newsletter subscriptions. This integration allows website visitors to easily subscribe to the Substack newsletter, expanding the client's email marketing list and driving audience engagement. Ensured proper functionality and styling of the form to maintain a consistent brand experience.

3. Change CORS policies

Duration: 15 mins

Completed: 08/29/2025

Description: Enhanced Description: Updated the website's Cross-Origin Resource Sharing (CORS) policies to enable secure communication with the Content Management System (CMS). This update was necessary to allow the website to properly retrieve and display content from the CMS, ensuring a seamless user experience and preventing potential security vulnerabilities.

4. Administration

Duration: 15 mins

Completed: 08/29/2025

Description: Completed detailed documentation of all project work to ensure accurate record-keeping and facilitate future reference. Performed repository cleanup and content management system (CMS) updates to improve system efficiency and maintain data integrity. These administrative tasks are crucial for project organization and long-term maintainability.

5. Refactor site for Vercel deployment

Duration: 45 mins

Completed: 08/29/2025

Description: Need to refactor the site to host it on vercel so I am not managing multiple projects across multiple platforms.
